

## **Proper Relationship with Supplier**

It is the policy of Teledyne Electronics and Communications to acquire the products and services it requires and to conduct its operations in a businesslike, impartial manner. To do so, all employees in any organization having contact with suppliers or potential suppliers must maintain the highest standards of ethics and business practices as representatives of the Company.

It is Company policy that employees must neither seek nor accept anything from a supplier or potential supplier. Too often activities of such a nature would create the appearance of favoritism in the allocation of Company business. This has the potential for adversely affecting the reputation of the Company for impartiality and fair dealing.
