

## **Supplier Visits**

All suppliers and their representatives desiring to, or actually furnishing products and services to the Company, must make their contacts through Procurement personnel. Our buyers welcome the opportunity to talk with you in order that they may be fully cognizant of the latest developments concerning new or substitute parts, materials or services, together with price and quality changes. We welcome your suggestions.

You are urged to be well prepared to present and discuss the capabilities of your company. To conserve your time and ours, we ask that you make an appointment with the individual you wish to see. Suppliers arriving without an appointment may be asked to schedule one and return at a later time.

Procurement personnel will arrange for special presentations or demonstrations at the request of Teledyne Electronic Technologies technical personnel or at their own discretion. In all cases, technical advice or assistance must be provided only with the prior knowledge of cognizant Procurement personnel.

As it is necessary for us to comply with many security and safety regulations, all visitors must sign in and be assigned a temporary visitor permit before continuing into the facility.
